Amber's behavior in the session was cooperative and attentive with no gross behavioral abnormalities. I assisted client this afternoon with washing and drying her bedding after it was all done all of it was returned to her in which she then put it all back in her area she was assisted by t s

#### MENTAL STATUS EXAM:

Amber's mental status has no gross abnormalities. Her dress and grooming are appropriate, she is friendly and communicative, and she appears to be her stated age. Mood is euthymic with no signs of depression or manic process. Her speech is normal in rate, volume, and articulation and language skills are intact. Suicidal or self injurious ideas or impulses are denied, as are assaultive or homicidal ideas or intentions. She denies hallucinations and delusions and there is no apparent thought disorder. Associations are intact, thinking is generally logical, and thought content is appropriate. Her cognitive functioning, based on vocabulary and fund of knowledge, is intact and age appropriate, and she is fully oriented. There are no signs of anxiety. There are no signs of attentional or hyperactive difficulties. Insight and judgment appear intact.

**MEDICAL HISTORY:** Amber recently experienced swelling to her face . She denied medical care. She was given a Benadryl and the symptoms subsided.

**DIAGNOSES:** The following Diagnoses are based on currently available information and may change as additional information becomes available.

Major depressive disorder, recurrent severe without psychotic features, F33.2 (ICD-10)  
(Active)

Bipolar disorder, current episode depressed, moderate, F31.32 (ICD-10) (Active)

Anxiety disorder, unspecified, F41.9 (ICD-10) (Active)

#### INSTRUCTIONS / RECOMMENDATIONS / PLAN:

#### LEVEL OF CARE JUSTIFICATION:

Amber continues to need outpatient treatment. She continues to exhibit symptoms of an emotional disorder that interfere with day to day functioning and requires continued treatment.

#### HEALTH CONCERNS AND RISKS:
